REQUEST FOR CORRECTION OF PATENT TERM ADJUSTMENT

Dear Sir:

This paper is submitted in response to the Notice of Allowance and Determination of Patent Term Adjustment mailed March 1, 2005.

The patent term adjustment was determined to be 801 days. However, additional time should be added to this calculation. The adjustment should be calculated as follows: 801 days due to delay in receiving first office action; plus 7 days due to a delay in receiving an Office Action after a response to the first Office Action was submitted.

A response to an Office Action was mailed 7.12.04 and a final rejection was not mailed until 11.19.04. Thus, the time after four months from when the response was mailed (e.g., between 11.12.04 to 11.19.04) should be added to the calculation. The error by the patent office occurred within PAIR, as the date entered for the response after non-final rejection is incorrect.

Respectfully submitted,
McDonnell Boehnen Hulbert & Berghoff LLP

Date: 5/6/05
